

Useful information for passengers regarding the refund of tickets and reservations in international traffic

1. Overview

- **Refund** is the operation by which the Non-Integrated Reservation Ticket, issued on the route, is returned by the passenger, no later than 1 month following the expiry date. In this case, the refund is made by charging a fee and the ticket must have on the reverse side the total or partial non-use mention. The total or partial non-use mention shall be applied, at the passenger's request, by the railway staff (only during the period of validity of the ticket), as follows:
 - Total non-use visa must be applied in the departure station or in the station where the issuing unit is located.
 - Partial non-use visa must be applied in the station where the passenger cancelled his journey plans.
- The refund shall be made at the passenger's request, based on a „Request for refund”, filled in in writing. The request for refund is a standard form (can be found also on the CFR Călători website) and can be submitted to any issuing unit (station or agency).
- Depending on the ticket type, the request for refund shall be submitted at the latest, as follows:
 - in a month after the expiry of the validity date – for the tickets issued on routes, with non-integrated reservation;
 - within 1 year after the last day of validity – for Interrail Pass, with the non-use mention applied before or on the first day of the Pass validity
 - before the departure day and hour of the train – for integrated reservation tickets (ticket and reservation on the same form), for individual passengers and according to the commercial provisions for group trips.
 - before the departure day/hour of the train – for the reservations issued to class cars in trains with supplements or sleeping cars or berth cars;
- The request for refund shall be submitted and handled only by the railway undertaking issuing the ticket. If the passenger does not refer directly to the issuing railway undertaking, he/she will be able to obtain the railway undertaking address from any issuing office in international traffic, on the CFR Călători network
- The request for refund must have the original ticket and reservation, including its own cover for Interrail Passes or tickets issued manually.
- If tickets or reservations are damaged or their indications are not legible or are changed, the carrier may refuse the request for the refund of tickets and reservations.

- Tickets/reservations submitted for refund, must be endorsed in advance with non-use mentions by the railway staff. In all cases, it is the passenger who must request the railway staff to apply the non-use visa.
- The passenger must fill in the request for refund in a correct, legible and complete way (name and surname, address, Social Security Number, personal current account, etc.).
- In case of individuals residing abroad, the request for refund must have the passenger's bank details (name and surname of the account holder, Social Security Number, IBAN code, bank, branch, city, country), because in this case, the money can not be sent by postal order.

Attention! If the applicant does not have the data requested above, he/she will have to designate a contact person residing in Romania, so that the refunded amount can be sent to that person.

- The request for refund can be solved on the spot, if possible. The request for refund that can not be solved on the spot, will be registered in the unit and the passenger will receive the proof of the request registration. The file will be sent to the specialized central office within SNTFC « CFR Călători » SA, as soon as possible.
