The period of validity may be extended by maximum the validity period of the original ticket without charge if the ticket cannot be used within its period of validity for unavoidable reasons (illness, serious accident, etc.) The conditions of the carrier, to whom the request is made, are applicable.

Tickets for offers linked to specific trains are only valid on the date and in the train shown on the ticket.

Accommodation is allocated in accordance with each carriers' conditions. Train staff may permit passengers without reservations to travel on trains with compulsory reservation if there is accommodation available.

In exceptional circumstances, train/carrier staff may allocate accommodation other than that shown on the reservation ticket.

Reserved accommodation is to be claimed within 15 minutes of departure from the station from which the reservation applies; if this is not done the entitlement to accommodation expires.

Passengers may indicate that an empty seat is occupied. Should passengers leave seats without a clear indication of occupation, they are to lose claim to them.

Passengers may only resume their journeys at the point their journeys were interrupted or at a point further along the route they have not yet travelled.

11.3 Change of carrier

In principle, where several carriers serve a section of route in parallel, passengers may not travel with a different Carrier than that indicated on their ticket. Individual carriers may permit change of carrier under special conditions; the details are then specified in their special conditions of carriage.

12 Offers

The carriers' fares are based on a single journey in the classes of train, classes of travel and service categories they offer.

The principles governing reductions from these basic fares are laid down below. If, and under what conditions, carriers offer further reductions is laid down in their special conditions of carriage.

Carriers are to publish details of fares in accordance with the provisions of the applicable national law.

12.1 Calculation of fares

Fares are calculated on basis of the tariff valid on the day of issue of the ticket by adding together the fares for the various participating carriers' sections. The tariff currency is Euro (€).

The fare set by the carrier will be charged for single journeys.

For return journeys via the same route, twice the fare for the single journey will be charged, or if appropriate, a special fare set by the carrier for the complete return journey.

For return journeys via different routes:

- If the same carrier is used for the out- and inbound journey, the sum of the fares for the single journeys out- and inbound will be charged, provided there is no special fare for the complete return journey.
- If different carriers are used for the out- and inbound journey, the fare for each leg will be set by the carrier in question.

For return journeys where the inbound journey starts from a point different from the destination of the outbound journey or an inbound journey to a destination other than the departure point of the outbound journey, the sum of the single fares for each leg will be charged.

Individual carriers may apply special provisions for calculating fares for domestic tickets in foreign sales; these provisions are shown in the special conditions of carriage.

12.2 Particular fees

The fees and charges (local supplements, port taxes, etc.) shown in the special conditions of carriage of the various carriers will be added to the standard fares. Reductions allowed from standard fares (including reductions for children) do not apply to additional fees and charges subject to the carriers' special conditions of carriage providing otherwise.

Exclusive use of a whole compartment is permitted provided tickets and a reservation ticket are bought for all the accommodation in the compartment. Only the actual passengers may take advantage of the reductions they may be entitled to. The standard fare is to be paid for all the other accommodation in the compartment.

12.3 Reductions for children

The principles for reductions for children are set down below.

For the purposes of this provision, the criterion for the age of a child is its age on the day the journey has begun. The ticket held by the accompanying person is valid for the carriage of children free-of-charge unless mentioned otherwise under 12.3.1.

Children under the age mentioned in column 2 of the table in No. 12.3.1 (special conditions see under “Remarks” in No. 12.3.1) accompanied by an adult travel free of charge, however if a seat reservation is wished or needed, this has to be paid.

Children between the ages mentioned in columns 2 and 3 of the table in No. 12.3.1 pay the standard fare of an adult with the carrier’s reduction shown in the table below, column 6 (child fare).

Where appropriate, a seat reservation is issued under the same conditions as for adults.

In some countries special conditions may apply to children travelling alone as well as accompanied by another person.

It is possible to charter special trains or special coaches. Conditions and charges may be requested from the carriers. Appendix 2 shows the list of contact addresses for the carriers taking part in chartering of special trains or special coaches.

13 Exchange and refund

This information comes as a reference to point 5.2.5 GCC-CIV/PRR.

Special Conditions of International Carriage – CFR Calatori

The terms "refund" and "exchange" are defined as follows:

Refund: when the trip is canceled and the total or partially unused ticket is presented by the passenger for the price refund.

Exchange: "a refund and a new issue"

13.1 Exchange

Exchange may only be made within the period laid down by the carrier. Special regulations for exchange may apply to special offers.

As appropriate, a difference in fares may be refunded or charged to the passenger.

13.2 Refund

In principle, the fare for a ticket will be completely or partially refunded if the ticket is not used at all or is only partially used. Non-use or partial non-use must be confirmed on the ticket as of the first day of validity or until the time of departure according to the Carrier's conditions. If the ticket bears no confirmation of non-use or partial use, appropriate evidence may be required with the application for refund (medical statement, new ticket bought instead of the unused ticket, etc.)

Special Conditions of International Carriage – CFR Calatori

Tickets presented for refund before the first day of validity do not require a non-use visa.

13.2.1 Submission and handling of applications for refund

The provisions of the GCC-CIV/PRR apply as regards submission and handling of applications for refund.

Applications for refunds are to be submitted to the issuing undertaking together with the original tickets at the latest one month after the validity of the ticket has expired. This period can be extended to three months, according to specifications in the SCIC of the issuing undertaking.

The requests themselves will be dealt with, in principle by the issuing undertaking, within a maximum period of three months after receiving the application and all the supporting documents from the passenger.

13.2.2 Handling fee

A fixed or variable amount may be withheld from the amount to be refunded. The amount of this fee will be set by the undertaking handling the refund.

Special Conditions of International Carriage – CFR Calatori

Total refund: CFR Calatori retains a commission of 10% of the price of ticket, but at least 3 euros / paying passenger.

Partial refund: This is done only by the specialized central office of SNTFC CFR Călători. The difference between the fare paid by the passenger and the full fare of the journey made is returned to the passenger. The value retained as a refund fee will be 10% of the amount to be refunded (the amount due to the traveler), minimum 3 Euro / paying passenger.

14 Special conditions for hand luggage

This information comes as a reference to point 7.1 GCC-CIV/PRR.

As a rule, each passenger may take not more than three easy-to-handle items as hand luggage. The special conditions of the carrier have to be checked for the exact maximum measurements.

Bulky items (skis, surfboards, musical instruments, prams, etc.) are only permitted if there is suitable space in the train to store them. As appropriate, they are to be dismantled, folded or packaged.

Notice concerning the carriage of dangerous goods in passenger trains can be found in the Appendix 3.

Goods regarded as dangerous include the following: gases, explosive substances and articles, flammable substances, solid desensitized explosives, substances liable to spontaneous combustion, self-reactive, oxidizing, toxic, infectious, radioactive, corrosive and environmentally hazardous substances.

1 Hand and registered luggage

- 1.1 Carriage of dangerous goods as hand and registered luggage is permitted only under the conditions specified in 1.1.3.8 of RID.
- 1.2 The dangerous goods permitted for carriage in a passenger's hand or registered luggage include dangerous goods packaged for retail sale and intended for personal or domestic use or for the passenger's sporting or leisure activities, provided that their packaging or nature prevents any leakage of contents, for example: matches, cigarette lighters, aerosols, gases contained in foodstuffs (mineral water, for example) or in balls intended for sports, light bulbs, cleaning agents, paints, solvents, fireworks, insecticides, etc. Such goods are also permitted if they were originally intended for one of the purposes mentioned above and are carried as waste (for example after use). The waste need not necessarily be packaged in the original packaging for retail sale, on condition that measures are taken to prevent any leakage of their contents under normal conditions of carriage. Therapeutic equipment for the journey is permitted. Dangerous goods packed in limited or excepted quantities are also permitted provided all the applicable requirements are met.
- 1.3 Passengers are further permitted to carry electric energy storage and production systems (e.g. lithium batteries, fuel cells, electric capacitors, asymmetric capacitors, metal hydride storage systems), when they are contained in the equipment for personal use during the journey (e.g. laptop, cellular telephones). The carriage of bicycles with an electric motor (e-bike/pedelec) is also permitted.
- 1.4 Radioactive material is permitted when:
- implanted or incorporated into a person or live animal for diagnosis or treatment;
 - present in or on a person carried for medical treatment;
 - contained in consumer products which have received regulatory approval.
- 1.5 Carriers may impose additional restrictions for carriage of dangerous goods as hand or registered luggage.

2 Carriage of dangerous goods in or on board vehicles (car on train)

- 2.1 The dangerous goods listed in [points 1.2 to 1.4](#) above may also be carried in or on board vehicles (car on train). The conditions mentioned in [point 1.1](#) also apply to dangerous goods carried in or on board vehicles.
- 2.2 The following requirements apply to vehicles:
- Gases and liquid fuels (e.g. gasoline, diesel fuel, ethanol) contained in the fuel tanks of vehicles, machines or equipment are permitted for carriage. Any fuel cock between gas/fuel tank and engine shall be closed and the electric contact open.¹
 - Liquid fuels may also be contained in refillable receptacles not exceeding 60 litres.

¹ This provision is fulfilled when the ignition key is withdrawn.

- Dangerous goods, such as batteries, fire extinguishers, compressed gas accumulators, airbags and other integral components of the vehicle that are necessary for the operation of the vehicle or for the safety of its operator or passengers, shall be securely installed in the vehicle.
- Lithium batteries installed in vehicles shall meet the requirements of RID. In the case of a damaged vehicle, the effects of the damage on the batteries shall be examined. If necessary, the batteries shall be removed and carried as dangerous goods in accordance with the regulations of RID.

- 2.3 Radioactive material is permitted for carriage when it forms an integral part of the means of transport.
- 2.4 Dangerous goods which are used for performing a professional activity (for example, aerosols, paints, solvents, gas cylinders carried by a manual worker or a sales representative) with the exception of internal or external distribution and of radioactive substances and articles may be carried subject to not exceeding the maximum quantities specified in RID and provided measures have been taken to prevent leakage of the contents. Uncleaned empty packaging from these goods may also be carried.
- 2.5 Carriers may impose additional restrictions for carriage of dangerous goods in or on board vehicles (car on train).
